

Lifewatch Industry Workshop

Vlaams Instituut voor de Zee vzw
Flanders Marine Institute

Valorisation of LifeWatch data

- Validated, continuous & reliable measurements as a basis for (marine) research
- New biological & ecological insights
- Solid knowledge base with regard to marine biodiversity

Valorisation of LifeWatch data

- Valorisation of Lifewatch data for the entire Quadruple Helix : Research, Policy, public and Industry
- Creation of a Lifewatch Maritime Industry Advisory Board : working together to see how we can valorise the rich amount of LifeWatch data for the industry
- This workshop :
 - Preparation of the Lifewatch MIAB
 - Present VLIZ Lifewatch : what is already available ? And how ? Which applications are already up and running
 - Capture the demands, expectations and questions of the industry
